

Looks like Scot has his hands full. Please,

Help Scot Shop

These items are difficult to carry on plane flights.

Self-Rising Flour

A small bag will do the trick, but the 5lb bag is just fine. Any brand. Major groceries are usually the easiest.

Cooking Spray

Any kind is good. Best if it's name brand or store brand and is not a special kind (ie not olive oil)

Butane Gas*

One 8oz gas canister is all that's necessary. Made for a caterer's stove. Any brand. Most easily found at Asian hardware stores, restaurant supply stores, in the Pacific NW "Fred Myer" & in some Canadian Walmarts.

*These butane stoves are used in top restaurants and are even safer for the show than an electric hotplate.
