ACT DESCRIPTION...

Scot Nery is a comedy juggler. His act involves lots of talking and unusual juggling tricks. It is suitable for churches or rock clubs.

The act begins with Scot pouring batter into a pan for his pancake performance. As the pancake is cooking, he does stupid stunts like removing a backpack as though it were a straightjacket, throwing a bucket onto his head (there's lots of pain involved – everyone laughs), and juggling balls and knives. There is audience participation and lots of funny on the spot interaction making the show feel like it really is live! Then, the pancake is finished cooking and Scot exhibits his freestyle pancake flipping skills set to hip-hop music.
